

Organization: Hampton Council PTA Meeting Date: March 26, 2013

# in Attendance: 56

- How were the polling results in relation to closing Moton Early Childhood Center? Concern was noted with regard to closing Mary Peake and then reopening Moton. Will this happen again, closing Moton? Concern was expressed with small children (4 year olds) in buildings with larger, older kids. Moton is equipped for small children; everything is scaled for the 3 and 4 year olds.
- At the polling event in Hampton High, the school system indicated that they
  would cut/contract out custodial services. Is that still on the table?
- On the City side, you do things in house and contract out. Are their different processes for determining which should be used?
- It definitely sounds like there is a drastic need for a tax increase. If there is not enough public support/backing for a 16 or 24 cent increase, are we still looking at some sort of an increase to protect some of our services?
- We really need attendance at City Council Meetings April 24, May 1 and May 8, to show support for a tax increase. Public participation is needed.
